FIVE HUNDRED LOST.

Such Was the Extent of the Recent Battle in Corea.

AN OFFICIAL REPORT MADE.

The Commander of the Japanese Forces Gives Details of the Battle—A Denial of the Report That the United States Will Interfere in the War—Other News Relating to the War.

Tokio, Aug. 6.—The following is the official report of General Oshima, who was in command of the Japanese troops in the recent engagement when the Chinese were defeated:

"After severe fighting during five hours, from 3 a. m. on July 29, we won a decisive victory. The enemy's intrenchment at Chenhon was captured, and over 500 out of a total of 2,800 Chinese soldiers were killed or wounded. Our losses were five officers and 70 soldiers.

"The enemy fled toward Hong Chow, and perhaps intend to embark in the Korean boats near Gunsan.

"We captured many flags, four cannon, many rifles and much ammunition. We occupy the enemy's headquarters."

DISPATCHES FROM SHANGHAI.

Not All the Startling Rumors About the War Are Believed.

SHANGHAI, Aug. 6.—The rumor current to the effect that the Japanese fleet had captured three men-of-war has not been confirmed. It is believed here that the report is possibly a relash of the reports of the prior engagements of the fleets.

As yet there has been no disorder in Shanghai, growing out of the war, beyond the trifling encounters between Japanese and Chinese rowdies.

The municipal council has appointed a rendezvous for the volunteers in the event of an emergency arising that will require their services, but no anxiety is felt as to the safety of Europeans.

The Japanese association, which includes among its members the leading Japanese of Shanghai and vicinity, has issued a warning to the Japanese residents that they must behave themselves and avoid any act that would tend to precipitate a conflict with the Chinese. They are particularly warned to keep away from the Chinese quarter of the city after dusk, and to remain as far as possible within the confines of their own settlement.

Rioting at Several Places.

LONDON, Aug. 6.—A dispatch received in this city from Shanghai reports that serious riots have occurred at Kobe, Japan, and Taku, China. In the latter place the Chinese openly insulted the members of the Japanese embassy, who were returning to Japan from Peking. The American agent at Taku, it is added, has forbidden the steamer Smith to land munitions of war intended for transshipment to Formosa. The Smith is a Chinese vessel flying the American flag.

Uncle Sam Is Neutral.

WASHINGTON, Aug. 6.—A strong denial is entered at the state department of the published story that the United States has or will enter into a treaty with European powers to forcibly occupy and keep open the treaty ports in China. It is also denied that any overtures to that end have come to us from other countries.

PULLMAN STRIKE OFF.

The American Railway Union in Chicago Gives Up the Fight.

CHICAGO, Aug. 6.—After a struggle of 40 days against the united railroads the American Railway union in Chicago has declared off the strike inaugurated in behalf of the Pullman employees. Beginning this morning each member of the union who responded to the order to strike, are at liberty to resume work. The strike is off in Chicago except among the employees of the Santa Fe and the Chicago and Eastern Illinois. By tomorrow the strike will be declared off along the entire system of railroads affected by the recent movement.

At a meeting of the delegates of the 24 local labor unions affiliated with the American Railway union yesterday afternoon it was voted to declare the strike off in Chicago except on the Santa Fe and Chicago and Eastern Illinois. The action was purely local, and the declaration does not even affect Pullman. Neither President Debs nor any of the American Railway union national officials were present at the meeting. In fact, President Debs had left the city for Terre Haute before it occurred.

Stockyard Employees Give It Up.

CHICAGO, Aug. 6.—The striking employees of the stockyards company decided last night at their meeting to return to work, and to report individually. It was also decided to assess those who go back for the benefit of those who can not get back, until the latter can secure employment.

Miners' Strike Off.

FLORENCE, Colo., Aug. 6.—The Colorado and New Mexico coal miners, who have been on a strike since the 1st of May last, declared it off at a large mass-meeting of the Fremont county miners, and they will return to work as soon as the various mines can be put in shape to receive the men.

Newspaper Suspends Publication.

MEMPHIS, Aug. 6.—The Star, an afternoon paper, which was started here about six months ago, has suspended publication. Creditors Saturday night attached the plant.

ANOTHER BOND ISSUE.

Difference of Opinion as to Whether There Will Be One or Not.

WASHINGTON, Aug. 6.—There are differences of opinion among treasury officials as to the probabilities of another bond issue. Neither Mr. Carlisle nor Assistant Secretary Curtis is willing to admit that there is any real cause for alarm in the present financial situation. It is known, however, that the president and his advisers are watching with eager interest every change in the financial situation, and that every phase of it is being carefully and thoughtfully studied.

Notwithstanding this solicitude, it is believed that it is the judgment of the president that the situation does not furnish any just apprehension, and that better times confidently may be expected soon. From this point of view it is argued that the passage of the pending tariff bill is sure to result in a prompt and general revival of business, and that in consequence there will be a large increase in the government revenues.

Receipts from customs, which for many months past have been gradually growing less, it is believed, will show a marked improvement from the very first and will continue to increase until normal conditions have been reached.

It is contended that, notwithstanding the fact that the gold reserve has reached the low water mark of about \$52,000,000, the government is really far better able to meet its obligations today than it was just prior to the February bond issue. There are some, however, who take a less hopeful view of affairs. They observe that the gold reserve, which, six months ago, was brought up to its normal condition by an increase of \$50,000,000 in the public debt, again melting away and already reduced to a point \$13,000,000 below the lowest point reached prior to the February bond issue.

They contemplate with uneasiness the fact that for a year and more, the ordinary expenses of the government have largely exceeded the receipts. This was true even during last month, when in expectation of a material increase in the tax on whisky, the receipts from internal revenue were abnormally large. It is argued that should the pending tariff bill become a law and go into operation even as early as the middle of the present month, no material increase in the revenue could reasonably be expected earlier than next December, for the reason that the tariff bill will have passed too late in the season to realize any considerable amount from the full importations.

The treasury figures show that there is now in this country at least a six months' supply of sugar, so that little may be expected from that source. This also is true of whisky. The statistics of the internal revenue bureau show that the tax already has been paid upon over 13,000,000 gallons of whisky in excess of the amount upon which the tax had been paid one year ago. Therefore, but little relief may be expected from this source before December.

The only recourse therefore, it is contended, will be to a bond issue, and there are many well informed persons who believe that if this congress does not pass a prohibitive resolution before adjournment, \$50,000,000 or more will soon be issued. That there would be no difficulty in placing any reasonable amount, even at the premium exacted in February, seems apparent from the fact that the February bonds are being sold at a premium of 1.27 per cent.

INCENDIARY FIRES.

Three of Them Very Close Together in an Ohio Village.

TOLEDO, Aug. 6.—Oak Harbor, a village of 2,000 inhabitants, about 25 miles east of this place, is in a state of terror. Within 20 hours three incendiary fires were kindled, the first entailing a loss of about \$35,000. It originated shortly after midnight Sunday morning in the staveyard of H. H. Milander, spreading from that point until it had burned over a patch of about 12 acres. An engine was sent from this city, but when it arrived the fire had practically burned itself out. The principal losers are: H. H. Milander, stave factory, \$7,000; George Deels, hotel and livery, \$16,000; John Reed, implement warehouse and residence, \$5,500; L. D. Link, carriage shop, \$6,000; Dr. Heller, residence, \$1,200. The insurance will cover from one-third to one-half the loss.

The Toledo engine was returned to this city shortly before noon, and a few moments after its departure, fire was discovered in the shaving-box of Roosevelt's stave factory, but it was extinguished with a slight loss.

At 3 o'clock a straw-stack on the property of Christ Vogel was lighted, burning his barn and other small buildings, causing a loss of about \$1,000.

No clue has been discovered thus far as to the identity of the incendiaries.

Prominent Surgeon Dead.

NEW ORLEANS, Aug. 6.—Dr. A. B. Miles, house surgeon of the Charity hospital, died at 11:30 o'clock Sunday morning, aged 42 years, of malarial fever, after two weeks' illness. Dr. Miles was a native of Alabama and was educated at the University of Virginia. He came to this city in 1872 and in 1877 was elected assistant house surgeon of the Charity hospital, and 10 years later was made surgeon, which position he has held since.

Once Noted Operatic Singer Dead.

NEW YORK, Aug. 6.—Mme. Osborne, the operatic singer, wife of George Poole, is dead. She and her husband separated long ago, just when it is not known. Recently the once famous singer had to beg for food. Unless it is claimed, the body of Mme. Osborne will be taken to the morgue.

THE TARIFF SITUATION

A Report Will Be Made by Wednesday Evening.

AGREEMENT OR DISAGREEMENT

An Understanding Has Been Reached That a Report Will Be Made Either One Way or the Other—A Sunday Meeting Held. Sugar, Iron Ore and Coal Discussed. Forecast of Congress.

WASHINGTON, Aug. 6.—The usual Sunday quiet of the Capitol building was broken yesterday by the assembling of the Democratic tariff conference at 2:30 o'clock in the senate committee room on interstate commerce. All of the Democratic conferees were present except Senator Voorhees, who is still sick, and Chairman Wilson, who had gone to West Virginia to see his sick wife.

The meeting lasted until 6 o'clock and was marked with even more than the usual secrecy. Some of the conferees declined to admit that they were together. Others were more communicative, explaining that the gathering was due to the desire to expedite a settlement at the earliest possible moment.

The meeting yesterday resulted in an understanding that a report should be made one way or the other—agreement or disagreement—within the next 72 hours. That it would be an agreement was not, however, definitely settled. On this point the conferees say they have not passed the danger point, although they seemed more confident that it would be an agreement.

The discussion yesterday again turned on sugar, iron ore and coal. The fact that these items are receiving attention is taken to indicate that the new sugar schedule has been thoroughly canvassed and that it will be the basis of an agreement unless some new obstacle intervenes.

The house conferees are proceeding without reference to the strong opposition to the new sugar schedule by the Louisiana senators. This opposition may be overcome, however, by permitting the present bounty or a portion of it to run until Jan. 1, next. The Louisiana opposition has been due mainly to the fact that provision has been made for bounty in the senate bill, and it has been urged that it was bad faith to cut off the bounty when the present sugar crop was put in on the basis of a bounty.

By postponing the time at which the bounty provisions of the McKinley law shall be repealed until Jan. 1, would operate on the crop about to be gathered. This, like other details of the proposition, are not yet agreed on, but it was mentioned by one of the conferees last night as a fair concession to the Louisiana men, and one likely to overcome their opposition.

The Louisiana senators have said they would be willing to accept half of the bounty for the present year in addition to the duty in the new compromise schedule.

Some attention has also been given to the income tax, and while a final agreement has not been reached, it is practically conceded that the senate limit of five years will be adopted. The house conferees feel that if the tax is in operation for five years, it will so recommend itself that an extension of the system will be enacted at a subsequent congress. Efforts are being made, however, to extend the limit to six or eight years.

FORECAST OF CONGRESS.

Both the Senate and House Preparing For Adjournment.

WASHINGTON, Aug. 6.—With the tariff disposed of, the senate could probably adjourn in three or four days' time. The last of the general appropriation bill has passed both houses and a majority of them have been signed by the president. Some of these bills are in conference still, but if an agreement upon them would bring an adjournment, it would not long be delayed, as there are no reconciliation differences between the two houses on appropriation. There is no measure other than the tariff bill and the appropriation bills which would be strong enough to hold the senate together for even a day.

The probabilities for the week include a report from the tariff conference committee and subsequent debate, and also the presentation of the conference reports on the sundry civil, river and harbor, Indian and general deficiency appropriation bills, and the consideration of the calendar when these more important matters do not occupy a position to receive attention.

The immigration bill will come up today at 2 o'clock, and in lieu of the tariff may excite considerable debate. The Republican senators are inclined to press the question of a further limitation of immigration, but so far the Democrats in the senate have not shown a disposition to accept the challenge, and they may choose to permit the Republicans to monopolize the discussion of the subject.

House Forecast.

WASHINGTON, Aug. 6.—The house will proceed this week, as it did last, with no fixed program. The house is simply awaiting the final report on the tariff bill. All its routine business has been transacted, and it is simply waiting. Today, however, is to be devoted to the Settle-Williams contested election case from North Carolina. The remaining days will be assigned to the routine business of the committees subject always to conference reports.

If the conferees on the tariff reach an agreement this week the report will first be considered in the senate and after being disposed of there, will come

to the house. If the report is not made before Wednesday there is no probability that it will get to the house this week. When it does reach that body it is not the intention of the house managers to allow any protracted debate.

RIOT AT BRAZIL, IND.

One Man Fatally Wounded and Another Badly Injured.

BRAZIL, Aug. 6.—David Wilson and Henry Wright, residents of Attica, were attacked yesterday by a crowd of 100 on the Jackson street crossing of the Chicago and Eastern Illinois railroad and horribly stamped and beaten. Wilson will die and Wright is seriously injured, being covered with bruises, his jaw bone broken and an ugly cut above the temple. Wilson's principal wounds are internal.

Train Master Fowler of the Chicago and Eastern Illinois said that they had come to this city to work on his road, and this led to the belief that the men were assaulted by strikers. Most of the strikers say they were acquainted with the men and that they did not come to work on the railroad and that they were assaulted and robbed by a crowd of toughs. Wright admits that he was robbed of considerable money.

A man who arrived here yesterday to take a position on the Chicago and Eastern Illinois was attacked by men alleged to be strikers, and was only saved from being killed by drawing a revolver, holding the crowd at bay until a policeman arrived and escorted him to the roundhouse.

These acts of violence created so much indignation among the citizens that United States Marshal Hawkins was telegraphed for. He arrived in the afternoon accompanied by his chief assistant, Mr. Foley. They were escorted to the chamber of commerce and met a crowd of prominent business men. Mr. Hawkins, by request of the citizens, made five of the most prominent business men in the city deputy marshals and invested them with power to select as many assistants as desired.

A finance committee was selected to raise \$2,500, which was subscribed by those present, to carry on the prosecution of the lawbreakers and to employ detectives to hunt them down. A court of inquiry will be begun at once, when an effort will be made to bring to justice those who have committed crimes since the strike.

Mayor McClellan issued orders to the police force to arrest every man and woman who calls another a "scab." More excitement prevails here now than at any time since the killing of Engineer Barr during the miners strike.

Death of Patti Rosa.

NEW YORK, Aug. 6.—Patti Rosa, well-known soubrette, died yesterday. She was the wife of John W. Dunne, who left this morning with the remains for Chicago, where the funeral will take place on Thursday next. Patti Rosa had intended to leave for Newport last week to spend several weeks before entering upon an extensive tour which had been mapped out for her. Not being in good health, however, she decided to undergo a medical examination, and on Monday last it was found that she was suffering from a severe form of appendicitis. She was removed to St. Francis hospital, where an operation was performed on Tuesday from which she died yesterday.

Crossing the Ocean in a Small Boat.

NEW YORK, Aug. 6.—Captain A. Frietsch, the adventurous young Finlander, who built himself a 40-foot sharpie in which to take a trip to Europe and demonstrate the superiority of United States models for small vessels and their sailing capabilities, started for Queenstown yesterday. Captain Frietsch built the Nina alone and brought it from Milwaukee by way of the lakes. He will navigate the little schooner-rigged vessel across the ocean by himself. He will be his own crew, cook and everything. The captain calculates that he can reach Queenstown in 35 or 40 days. The Nina has provisions aboard for several months.

Fire on a Warship.

VALLEJO, Cal., Aug. 6.—A fire broke out on the United States man-of-war Marion about 7:30 Sunday morning, and it was three hours before the flames could be extinguished. The vessel was put in the big dock at Mare island last Monday. The fire was confined to the ward room and the shell room on the port side, and was very difficult to reach it being necessary to cut through the side of the ship and down through the deck. The vessel is built of white oak, and the fire raged fiercely. The cause of the fire is unknown, but it is supposed to have originated in some waste. The loss is \$2,000.

Fire at Marion, Ind.

MARION, Aug. 6.—Fire broke out here last night and destroyed Sweetzer's lumberryard, including a planing-mill; flouring-mill of Mark, Barge & Lake; Fanser's drugstore, Culbertson's saloon, Shield's wholesale fruit depot, Henry Beshore's grocery, Steven's saloon, Fiest's bakery, a restaurant and a residence and a number of boxcars on the Panhandle railroad. Loss, \$75,000. Several persons were injured.

Killed His Wife and Shot Himself.

NEW YORK, Aug. 6.—After a night spent in brooding over fancied wrongs, Joseph B. Hunt, 40 years old, a paper-hanger, shot and killed his wife, Barbara, aged 37, in their apartments on Second avenue, yesterday morning. Hunt then turned the revolver on himself and sent a bullet into his own head. The woman was killed instantly, the man is still alive but in a critical condition.

Coal Mines Resuming.

DENVER, Aug. 6.—The numerous coal mines in southern Colorado and New Mexico were reopened this morning, giving employment to thousands of men.

FIRE AT A BALL PARK

Part of the Grand Stand Burned at Chicago.

A PANIC AMONG THE PEOPLE.

Two Men Badly Injured and About a Dozen Others Less Seriously Hurt—A Barbed Wire Fence Greatly Interfered With the Exit of the People—The Fire Caused by a Lighted Cigarette.

CHICAGO, Aug. 6.—The discovery of fire in the grand stand at the West Side ball park yesterday afternoon caused a wild panic among the spectators in which several met with serious injury and a large number of others were slightly cut and bruised in endeavoring to make their exit.

Those most seriously injured are: E. W. Bartlett, 48 years of age, leg fractured, and Ed Ahern of fire insurance patrol, severely burned about hands and face.

The following are those treated at the county hospital, whose injuries consisted of lacerated hands and fingers, from scaling the barbed wire: George J. Kemper, Dewitt Smith, J. B. Martin, M. Lawrence, Simon Armstrong, Henry Parker and M. Rawley.

The Chicago and Cincinnati base ball clubs were battling with each other and a crowd of not less than 10,000 crowded into the grounds at Polk and Lincoln streets to witness the game. Every available seat in the grand stand and bleachers was occupied, and a large crowd of men and boys contented themselves at not finding seats in taking up their positions on the ball field. The game had advanced to the seventh inning, with the Chicagoans leading the Red Stockings by seven runs, when suddenly a cry of fire was heard from the bleachers and a thin veil of smoke was seen creeping through the seats from below.

The cry of fire was taken up on all sides and in a very short time a terrible panic ensued. The four exits leading from the ground were jammed with anxious men and boys and also a sprinkling of women. The exits were not large enough to permit the terrified throng to go through, and hundreds of men sought places of safety by jumping over the barbed wire fence and into the ball ground. The four rows of barbed wire, which encircle the stands, proved very disastrous to the people who attempted to make their way through them to the grounds.

A jam of men and boys crowded to the barbed wire fence, but they were not able to get through owing to the closeness of the wires. The first to the fence scaled it successfully, but those that followed, in their anxiety to get to safe quarters, tried to crawl through, and in nearly every instance became wedged between wires, his clothing torn in shreds and hands and legs were lacerated by the sharp bars.

When the fire department arrived the entire 50-cent stands on Lincoln street and also a portion of the grand stand were a mass of flames. The fire spread with lightning-like rapidity and the small force of firemen which responded to the first alarm were unable to cope with the raging flames. Fire Marshal Swenie, seeing that the entire buildings in the ball park were threatened, sent in a 2-11 alarm, and with the reinforcement of engines the fire was kept from spreading to the grand stand proper. The heat from the flames was so intense that the firemen were unable to get within 20 yards of it. The side-walks on both sides of Lincoln street and also the cedar paving blocks in the street were burned.

Edward Ahern, a fireman connected with the insurance patrol No. 6, endeavored to reach the ball ground by going through that portion of the stand which was in flames. He only went a short distance when his clothing caught fire. He was compelled to retreat into Lincoln street, where his comrades extinguished the fire in his clothes. He was badly burned about the head and hands.

During the stampede E. W. Bartlett of 8 Center avenue became wedged in the barbed wire fence, severely cut his hands and legs, and several others who followed fell on top of him, smothering him into unconsciousness. He was rescued from his perilous situation by police officers. He was removed to the county hospital, where it was found that his left leg was broken below the knee. He was also badly bruised about the body and limbs.

The close proximity of the County and Presbyterian hospitals stood the injured in good stead. For an hour after the first alarm the physicians of both hospitals were kept busy attending to the injured. Twenty or more went to the County hospital to have wounds, received by climbing through the barbed wire fence, dressed. None of the men save Ahern and Bartlett were kept at the hospital, the others being turned away as fast as their injuries were attended to.

After an hour's hard work, the blaze was gotten under control. The damage was about \$4,000, covered by insurance. The cause of the fire is thought to be due to a lighted cigarette being thrown among the shavings and other combustible material under the stands.

Stabbing Affray at a Wedding.

MOUNT CARMEL, Pa., Aug. 6.—Five Hungarians were stabbed at a wedding here, last night, and two of them will in all probability die. The stabbing was done by John Bolton while he was under the influence of liquor. Bolton refuses to admit or deny that he committed the deed, but witnesses swear that they saw the uplifted dagger in his hands. Michael Kokosh, one of the victims, can not live.

TORPEDOES AND WARSHIPS.

A Protest Against Terrible Explosions on
Paper by an Investigator.

Naval men must be amused at the terrible explosions on paper caused to warships as portrayed in the recent editions of "penny dreadfuls." A torpedo discharged from a torpedo boat is supposed to have blown her majesty's steamship Narcissus, a vessel of 5,600 tons, into twain, which ship "then plunged stern foremost into the sea, and with the union jack still flying disappeared without a soul on board being able to save himself."

I was present when, I believe, two torpedoes, with 100 pounds of gun cotton in each, were discharged against her majesty's steamship Resistance, protected by hers, as an experiment in Portsmouth creek. The Resistance was specially strengthened, but she had not nearly as many separate compartments as our new ships. She certainly sank at the last discharge when the nets had given away, but sank slowly. There was no "blowing out of the water" about it at all. The Resistance was, if I remember rightly, of about 4,500 tonnage.

As to the actual effect of gun cotton employed in blowing vessels into the air, I can call to mind one case which happened to my personal knowledge. A slave dhow of about 40 tons burden had been chased by the boats of one of our cruisers and escaped immediate capture by running up a creek in the north part of Pemba island, near Zanzibar. She arrived at the top of spring tides and had been lightened beforehand. Although condemned in the Zanzibar prize court, she could not be floated for several days. A party of men was therefore sent on shore to destroy her, and two 16 pound charges of gun cotton were placed under her keel, holes being dug out and tamped down, one under the mast and the other 12 feet from the stern. Instantaneous fuses were fitted in pistols, and the party retired about 50 yards into the bush. The Arabs were in numbers looking on, not offering any resistance. When the pistols were fired together, by the fall of a flag, the dhow was hoisted bodily up into the air some 30 or 40 feet, broke in two in a V form and fell in pieces. The Arabs rushed away, crying out "Ajib, Shaitan!" (Wonderful, the devil!) And this incident struck a considerable blow against the proceedings of the Pemba slave importers. Still there is a great difference in blowing up a vessel of 40 tons, almost on land, with 32 pounds of gun cotton, and blowing up a ship of 5,000 tons in water, if even with 200 pounds of gun cotton.—Westminster Gazette.

BASE BALL GOSSIP.

The "Regulators" at Flemingsburg To-day—Negotiating With Cynthiana Team.

The "Regulators," a team composed of players from the East End, play at Flemingsburg to-day. Stanley Nolin will twirl for the "Regulators" and Musselman for Flemingsburg.

Fred Frank, George Nie, Charley Sparks and Frank Bruner are all on the Regulators' pay roll. They will strengthen the locals mightily, and there is not a team in Central or Northeastern Kentucky that has any edge over Maysville now.

Our boys are loud in their praise of the treatment they received at Ashland, not only at the hands of those connected with the Ashland team, but a number of influential citizens as well. Nothing will be too good for the Ashlanders when they play at Maysville again.

Robert Holliday, an ex-Regular, has signed with Huntington. He will play in the outfield, and will help Huntington to win many a victory.

Enoch A. Powell, on account of other business, resigned the management of the locals, and Walter S. Watson stepped into his shoes. Mr. Watson is a thorough business man, and there is no doubt but that the club will continue to prosper.

Manager Watson is negotiating for two games here Tuesday and Wednesday with Cynthiana.

Georgetown defeated Frankfort Friday at Georgetown by a score of 8 to 5. Daniels and Kalcoff were in the points for Georgetown.

Paris has signed Conover, one of Lexington's crack players.

Ashland News: "The Maysville boys want a game at some neutral point for any money, both teams to chuck in on the hiring of a league umpire. It's not altogether unlikely that they may be accommodated."

In its account of Friday's game at Huntington, the Ashland News says: "Twelve innings were required to decide the supremacy, and a more exciting contest could scarcely be imagined. Wadsworth pitched the whole long game for the visitors, and the little feather-weight proved himself a 'cracker jack.' He struck out nineteen men and held his speed and control to the very last. His support was also better than in any of the Ashland games."

D. HUNT & SON.

Madison Female Institute!

Boarding and day School for young Ladies. Thirty-sixth year opens in September, 1894. College and Preparatory courses. Building commodious; hot and cold baths and closets; recreation rooms are above ground—large, well ventilated. Grounds consisting of fourteen acres, affording ample space for tennis courts and other out-door amusements; commodiously located on a hill overlooking the city, within a minute's walk of the business portion.

In September, 1894, this school opens under the management of Mrs. A. R. Bourne and Miss Alice Lloyd, Associate Principals, late of Hamilton College, Lexington, Ky. They will be supported by an able corps of teachers. The school will be limited to thirty boarders, thus an opportunity for social life will be afforded, impossible in large boarding schools. For catalogue and other information address

MRS. A. R. BOURNE,
Associate Principals, M. F. I., Richmond, Ky.

LEXINGTON, KY., June 20, 1894.

It gives me pleasure to say that I am well acquainted with the character and the work of Mrs. A. R. Bourne and Miss Alice Lloyd and that I think the Madison Female Institute very fortunate in securing their services in its management. They are both ladies of culture, executive ability and skill in the art of teaching. No parents in Kentucky or elsewhere need hesitate to put daughters under their care and instruction.

J. W. McGARVEY.

To Whom It May Concern: Having learned that my friends, Mrs. Anna R. Bourne and Miss Alice Lloyd, have engaged to take charge of Madison Female Institute, it gives me pleasure to say that they are in my opinion in every way qualified for the responsible position. These ladies have had due opportunities of learning the best methods of teaching in some of the most celebrated seminaries in the land. This, combined with rare ability and some ten or twelve years' experience in the school room, gives assurance of success in their undertaking.

Mrs. Bourne and Miss Alice Lloyd as Associate Principals, will be aided by a corps of able teachers; and from my knowledge of their ability, energy and christian culture, I am sure they will do good service in the cause of Christian education. In this expectation I commend them and their enterprise to the patronage of the public.

THE FAIR A SUCCESS.

The Attendance Remarkably Good Throughout—Events of the Closing Day.

The members of the fair company are very much gratified over the success of the meeting last week. Many people predicted all along that the fair this year would prove a miserable failure, principally on account of the "hard times," but the attendance was remarkably good throughout, and the crowds would no doubt have been larger had the facilities for reaching the grounds been what they were in previous years. The C. and O. ran no special trains last week, and while the management of the electric railway did their best yet they were unable to handle the crowds.

The fair closed Saturday with probably the largest attendance of the week. The weather was delightful, a repetition of that on Friday, and the track was fast.

Following is a list of the successful exhibitors in the arena:

Pair of mules, two years old or over, age to be considered: E. R. Davis, Helena, \$10.

Death of Mrs. Rosa Fitzgerald.

Mrs. Rosa Fitzgerald, whose serious illness was mentioned last week, died Saturday at 12:30 p. m. at the home of her husband, Mr. John H. Fitzgerald, in West End. Deceased was born in Dublin, Ireland, and was about sixty years of age. Her maiden name was Moore. She came to Maysville in 1853, and was married shortly afterwards to Mr. Fitzgerald, who, with three children, survive. Deceased was a woman of kindly disposition, ever ready to lend a helping hand to those in need. The funeral occurred at 10 o'clock this morning at St. Patrick's Church. Burial at Washington.

All of which is guaranteed to do you good and costs you nothing, at J. J. Wood's drug store.

'Squire Kabler Dead.

'Squire Kabler died Sunday morning at his home near Minerva. Kabler was a tenant on the farm of Mr. Garrett Donovan, and was shot and dangerously wounded by the latter a couple of months or so ago. It was thought for some time that he would recover, but the wounds finally resulted in his death.

Big Business.

Messrs. Myall & Shackelford, the enterprising buggy and carriage manufacturers, report a larger business last week than during all previous fair weeks combined. They sold fifteen vehicles of their own make, besides a great many others. Their branch house at Paris also reports a good trade.

JOHN WESSELMAN, an anti-Goebel delegate to the recent Appellate convention at Augusta, will bring action against the C. and O. railroad for \$20,000 damages for being thrown from a train at Foster's while returning from the convention.

AT Cincinnati Saturday, Execution Deputy Sheriff Corman served a writ of attachment in the case of the Brooks-Waterfield Company vs. L. A. Armstrong, a Kentucky planter, for \$3,900. He seized eleven hogheads of tobacco which he found at the Globe Warehouse.

DETECTIVE E. W. FITZGERALD of the C. and O. arrested a man named Sam Blackburn, of Roanoke, Va., for stealing a suit of clothes from a C. and O. brakeman at Hinton about ten days ago. The prisoner was taken to Hinton where he is now in jail. Captain Fitzgerald is of the opinion that Blackburn is also wanted at Clifton Forge for stealing a watch.

Just received, a new line of belts and buckles, belt pins in gold and silver, ladies' button sets, children's dress pins and button sets, hat pins and hair pins, cuff pins in gold and silver, link cuff buttons, scarf pins. These goods have been marked down to bottom prices.

P. J. MURPHY,
Successor to Hopper & Murphy.

COLONEL TOM MARCUM, of the Catlettsburg Democrat, who has been mentioned in connection with the race for the Democratic nomination for the short term in Congress was in Maysville Friday. In conversation with the BULLETIN he said that he would appreciate the honor highly if nominated, but he did not intend to enter into any scramble for the place.

FAIR HOP.

The U R Wanted and Muskm Club Entertained in Royal Style at Neptune Hall Friday.

In response to handsome invitations about sixty couples attended the hop Friday night at Neptune Hall. Among the number were many ladies and gentlemen from different sections of the State. The ladies from a distance were as follows: Louisville, Misses Vena Cahill and Maggie Green; Covington, Misses Mary and Kate Burns, Mary Louise Lyons, Anna Conley, May Kenny and Margaret Redmond; Cincinnati, Lizzie Flannery and Mae Kirk; Flemingsburg, Agnes Maloney; Lexington, Margaret Caden and Josie Fitzgerald; Paris, Julia Doyle; Carlisle, Miss Archdeacon; Murphysville, Nellie Warfield Buckley; Germantown, Misses Lizzie Coughlin and Nellie Moore; Washington, Betty Larkin.

It is useless to say that all who were there enjoyed themselves, for how could it be otherwise when the gay hearted young people each vied with the other to make it an evening of pleasure. Prof. W. A. Cole as manager has no superior and few equals, and the members of the club are under many obligations to him for his untiring efforts. An elegant lunch was served by Martin Brothers.

Stickley's Concert Orchestra furnished music for the occasion and it goes without saying that it was all that could be desired. The orchestra is an excellent one, and deserves all the encouragement our people can give it.

When the dawn of day approached the gay dancers were loath to leave. All agree that it was one of the pleasant events of the week.

THREE stores at Ravenswood, W. Va., were burglarized Friday night of \$500 worth of goods. The thieves got away by fording the river.

A GEORGIA couple have been remarried, after being divorced twenty-eight years, at the home of a daughter who never saw her father till the day of the ceremony.

MR. CHARLES STEWART is the proud possessor of a fine new cornet, made to order by Conn, of Elkhart, Ind. It is triple gold-plated, and one of the best ever turned out by Conn.

DOUGLASS Division, K. of P., of Cincinnati, has contracted with the Chesapeake and Ohio to go to Washington, D. C., to attend the National encampment. The members will leave on August 25 at 7 p. m.

A DAUGHTER of Hon. Charles Denby, Minister to China, married Gilbert Wilkes, Esq., brother-in-law of Mrs. Sallie Marshall Wilkes, of this county. Mr. Denby is now on a leave of absence visiting his daughter in Michigan.

By unanimous vote of the House Friday the Secretary of the Interior was instructed to pay Representative John T. Heard, of Missouri, \$10,000 for services rendered the old settlers of the Western Cherokee Indian reservation. Congressman Heard is a son of the late Judge Heard, who married Miss Mollie Gilpin, formerly of this city.

At Owensboro Saturday, Judge Owen granted a temporary injunction against the Sheriff, restraining him from collecting county taxes for 1893 and 1894 from the Deposit Bank. The Sheriff levied on the banking house, and this action is taken to test the constitutionality of the new revenue law. The case will come up for hearing in September.

The latest from Washington is that Congressman Paynter will not resign his seat before the November election. Mr. Paynter thinks by resigning now he would cause the Democrats of the Ninth district some trouble, as there are ten or twelve prominent men in the district who would gladly go to Congress for the short term, and a convention coming so soon before the election might cause considerable trouble for the dissatisfaction among defeated factions.

The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Ruggles Camp Meeting.

"All the BULLETINS are gone!" was the cry of Carlisle, the BULLETIN boy, on Saturday night as he handed out the last paper. Everybody enjoys reading it because it has always been the old standby of the camp ground. Saturday was a day well enjoyed by all and each meeting was full of the Spirit and well attended.

Sabbath morning the sun came glimmering through the trees of this beautiful woodland, and there opened up as beautiful and bright a day and as pleasant as Ruggles ever enjoyed, and though the crowd has been larger, yet every one carried a smiling face and seemed to be glad they came.

At 6:30 a. m. we had the sunrise prayer meeting. Then at 9 o'clock the experience, which was heartily enjoyed by all, as they listened to the experiences of those who had followed up and attended these meetings for the past twenty-one years. And as they spoke of the faithful and loved ones who once worshiped with us, but had now passed to their reward, many, very many, shed tears.

At 10:30 a. m. the Rev. Dr. Clark preached from Isaiah 54: 17. A masterly sermon and every eye was riveted on the speaker, so rapt was the attention, and we heard many express themselves as delighted with this impressive speaker. Maysville was well represented, as she always is, but there were some who have never been before, yet venture the assertion they will be sure to come again.

There are a number of earnest, eloquent preachers present, and most of them have come to stay for the meeting.

It is to the credit of these grounds to see the good behavior we have at all times. Not a jar or anything to disturb the pleasure of anyone.

TAKE a delightful two-hours ride up and down the beautiful Ohio this evening on the neat little steamer Lorraine. Only ten cents. Leaves her float at foot of Limestone street at 7 o'clock. Music by Aberdeen orchestra. How can you spend a few hours more pleasantly this hot weather?
